We need volunteers! Can you spare even a few minutes a day to change the world through music? If so, then please – listen up!  
Lfl is a global family of music listeners, performers, creators, educators, and producers, all working together to restore music as a unifying force among all people, one note and one community at a time. Our projects, programs and productions have thus far impacted the lives of 9 million people worldwide.  
Lfl is a completely volunteer-run organization, and right now we have several very important projects going on in the greater Bay Area, in our schools, and on our radio and television media! PLEASE visit our website to learn more about them! but .....NONE of these activities are possible without your help!  
Do you love music of all cultures and believe in its power as a channel of communication?  
Are you between 15 and 85? (we currently have volunteers at both of those ages)  
Can you spare one hour a week or even 70 hours a week? (yes, we currently have volunteers doing both of those amounts!) Just as EACH voice matters in a choir, EACH person matters in the mission of Listen for Life – whether you are a musician or a music listener, we DO need any and all skill sets that you bring – from board development to data entry, from phone calling to fund-raising, from grant writers to Twitter experts, from filing mavens to Facebook gurus, from social networkers to retired schoolteachers, webmasters to video producers, and opera singers to retired rockers. You can participate from your own school, business, home or your favorite coffee house, at your own computer or phone.....you don't have to come into our office locations if you don't wish to!  
We need your help (and/or donations) to make as big a difference as possible, so please, come join us!
